# The Burning Season Mailorder & Newsletter

September 1999

Welcome to the First new letter of  
INVICTUS PRODUCTIONS... (Sept. 1999 Era  
Vulgaris.)

...A Mighty and bold Hail to you for choosing the last  
music to really stand outside the mainstream, the last  
truly rebellious, untainted and individual  
music... METAL. This decade has seen market forces  
and bare faced trend take it's toll on Metal. There  
have been many casualties and many traitors to the  
cause. It is our aim to bond those who still stand  
proud, unmoved and unaltered by trend and what the  
men and women of fashions flow deem "cool". Our  
aim is to form a tightly knit community in this  
country. We have no radio shows or periodical  
printed magazine, pretty much no hope of getting to  
see the bands with the odd exception and od prices  
higher than the rest of Europe and all but one club  
night and no Metal pubs. So we must Fight to  
preserve our culture... for that is what it is... if Metal is  
in your veins, don't take it lightly... DEFY ALL.

...We will prove that there is an alternative to paying  
the pats of £20 for a cd, we will try and find what  
it is you are looking for... we will try and bring to your  
attention bands any magazines that are unknown  
in this country... that should be. We will do our best to  
bring you bands that step outside the sanitised  
Kernaz approved strain that we have only gotten in  
the last half decade. You may not know it but in our  
midst are the souls who have brought you the likes of  
Cathedral, Anathema (twice!), Impaled Nazarene,  
Solstice, Warning, In the Woods, Katatonia, V.O.D,  
Decomposed, Korpik, Thra Defiled, Chapel of Rest,  
Sigh, Carnal Corpse and Krabathor among  
others... were you there?... you should have been, but  
there will be other times so make sure you are there in  
the future. STAND UP AND BE COUNTED...

...There is an alternative to the crass Kernaz/gp  
culture... Metal has become a "dirty" word in this era  
of MTV sanitised and safe U.S apple pie rebellion,  
we have had a decade of graceless, self effacing, p.c  
music masquerading as the "alternative" and it pains  
me to say it... in many peoples

eyes... "Metal"... However we the real Metal people  
and our bands have always been there and always  
will... So Stand Proud... Stand your ground and Never  
EVER Give in. The Battle Rager Brothers and  
Sisters... choose your side.

VENI VIDI VICI

Unconquerable... INVICTUS...

Our plans are to bring you an extensive mail order  
list as we can every month, which will include  
reviews, interviews and in general news about what is  
happening here and abroad... so give us your address  
and the address of any body else you may know who  
may need us and join our mail order... See you on the  
battlefield.

#### IRISH NEWS

Firstly what has been happening when it comes to our  
own. Firstly the third METAL FEST in Abbeyleix  
took place amidst many problems on the day... in the  
end it just about scraped by, by the skin of it's teeth.  
This one in particular was not "our show" but plans  
are afoot to make it a bi-yearly event and erase all the

problems there were. PRIMORDIAL have a new  
mod out this week entitled "The Burning Season" (see  
interview). This will be on offer for the special price  
of £5 from the stall and £6 through the post. The  
official launch of the mod is in the VALHALLA  
Metal club on Friday 24<sup>th</sup> of this month in  
'Fibbers/the Aquarium' just off the top of O'Connell  
St. In Dublin (more later about that)... there will be  
special offers on prizes and an appearance by some  
familiar faces as the SONS OF SATAN lighting up  
the dance floor that night!. Also the vinyl version of  
"A Journeys End" is out and available at £7.50 P&P  
or for £6.50 from the stall. The aforementioned  
"Burning Season" shall also be available as a very ltd  
Picture disc in the coming months. The band were in  
Holland and Belgium in the Summer and hopefully  
will return this Winter... see the interview for further  
details... enlightenment... waffle etc. ARCANÉ  
SUN... of course you have their debat ed right?... well  
if not you should have... the band recently performed  
at an open air festival in Bad Berka in Weimar in  
Germany together with the likes of Amos Amarth,  
Deranged and Edge of Sanity... another triumphant  
night for Irish Metal. They hope to record a new  
album before the year is out. An interview next time  
round... GEASA as you should of course know had  
their rather splendid "Angels Cry" album released  
during the Summer on French label Seasons of Mist  
to much critical approval... if you haven't got it... why  
not?... they are currently writing songs and hoping for  
a venture to Europe. ABADDON INCARNATE's  
ferocious debut "The Last Supper" has just been  
released by Seasons of Mist also and the band are  
pretty much in the same boat as GEASA when it  
comes to new material and foreign gigs. You  
remember CRUACHAN right?... well they have  
indeed reformd so watch this space!. KINGDOM  
hope to record a demo in the coming months... watch  
out for that and am reliably informed that MAEL  
MORGHGA are recording their debut demo as I am  
writing this!... sounds promising. WAYLANDER are  
working on new material also and deciding on a label  
I am informed. Do you have the new DEPRIVED  
magazine?... containing the likes of Ritual Carnage,  
Katatonia and the like?... Well it can be ordered from  
the Deprived address for £2.50. MOURNING  
BELOVETH are also writing new songs as we  
speak... very slowly of course!. When it comes to the  
Irish scene if you want your demo mentioned and  
your address printed send it in or give it one of us and  
we shall of course print it... collecting information can  
be a fraught exercise at the best of times...

#### COMING ATTRACTIONS...

Ahem... a few things we should have very soon if not  
perhaps already?... first up and something that is  
eagerly anticipated is the new ANGELCORPSE  
album "The Inexorable"... touted as being THE Death  
Metal album of the year... this promises to be truly a  
fist in the face of god. And to the man who first  
coined that honourly phrase... Master Fenrix has been  
busy and a new DARK THRONE album should be  
very soon in our greasy little hands, and if the  
rumours are true it is a big return to form. Staying  
Norwegian the new SATYRICON album "Rebel  
Extravaganza" should be soon upon us... needless to  
say we have the new mod "Intermetto II" for a mere

£7 in the post while those people at Tower have it for £17.99?...some choice? The new **DARK FUNERAL** "Teach your Children to Worship Satan" should also be here very soon and should prove to be a popular item indeed, containing covers of Slayer and King Diamond among others. Speaking of all things powerful we do hope to have the new **VIRGIN STEELE** "The House of Atreus" but it is proving difficult to get these titles in the first place and keep the price at £10, we are trying to get most of the **MANOWAR** back catalogue as now that people have at last gotten to hear the Kings of Metal we are selling out of everything we have as soon as we set up the stall...and why not? By the same token old titles by **CELTIC FROST**, **POSSESSED**, **DARK ANGEL** and **SODOM** are hopefully coming in soon. The new **KATATONIA** and **BEYOND DAWN** albums have been ear-marked and also the first two **NILE** mcd's are hopefully arriving...as their full length is proving very popular. This is only a taster so to speak...there will always be new things arriving every month...this is hopefully the tip of the damned iceberg...will keep you posted.

#### PRIMORDIAL INTERVIEW...

With a new MCD coming out we thought we would delve into the Primordial mists...every month a different Irish band or foreign band.

Here is Master A.Nemtheanga

- Tell us about the new MCD "THE BURNING SEASON"?... "It was recorded here in Dublin with Mags from Academy in March I think, there have been a few delays but it's ready now. It contains 4 tracks, two new and two older reworked songs, it's about 32 minutes I think..."

- And another new label?... "Yes it's on Hammerheart Records from Holland, long time friends of ours...Blood Brothers if you will..."

- What happened with Misanthropy?... "I think Tiziana lost her heart and a little spirit with the whole situation and just decided to wind things down, so we were going to have to find ourselves another label anyway. I think she wants to move on and do other things, which is fair enough..."

- And how do you look back on your time with them?... "It was ok, to be honest I don't think any relationship between band and label is ever perfect or near it. There are some things that could have been done differently and things I am unhappy with, but overall I have no regrets. Misanthropy was a select label and it was good to be a part of something with more substance than just commercialism..."

- And looking back at "Journeys End"?... "Fine, I still am pretty satisfied except with the cover which never should have been changed...you'll see it on the old promos and now on the vinyl edition. Perhaps a little of the fury of the songs was diluted in the production but I'm still mightily proud of it, it will stand the test of time..."

- Compared to the MCD?... "The new MCD is more mighty and Epic, Harder and more Metal. A little less melancholia obsessed, and the sound is tighter and more focused..."

- How do you see the direction of the next album, in what direction will it go?... "I think carrying on in the vein of the mcd, more Epic and fiery, there shall be more lyrical and visual continuity and a lot more

light and shade. Tragedy and Might enfolded together. Hopefully it will be recorded sometime by the end of the year."

- How were the gigs abroad this Summer?... "Yes we played a few shows with Mayhem and Hades Almighty in Holland and Belgium in May, having finally got there it adds another important dimension to the band, it shows you the importance of being driven and having goals. It also shows you what a pathetic shit hole this country is for gigs and general organisation with no support at all from any external bodies...there may be some gigs abroad after the Mcd and a tour is certain after the next album."

- After all these years how do you view the Irish scene?... "Well for once we have bands now able to compete with the rest of the world, whereas years ago the musical output was an embarrassment to be honest. One thing is that our scene has become increasingly marginalised in this country...you may as well be a leper as to be a Metalter. We must be more professional and organised. Metal is the last truly independent and individualistic music out there...people should feel proud to be part of it and it's glorious history. All the odds here are stacked against us...so we must fight all the Harder..."

- Your musical tastes seem to have gone sort of full circle, what would you say to that?... "Well I still listen to quite a diverse range of stuff but I guess it's true I suppose these days the likes of Manowar, Virgin Steele, Rhapsody, Iced earth, Judas priest, Candlemass, Mercyful Fate, WASP, Savatage, Maiden, Blind Guardian, Running Wild and Nevermore would often be my listening choice...Indeed I still love the likes of Immortal,

Angelcorpse, My Dying Bride or Rotting Christ and of course Kreator, Destruction and Possessed and stuff but I suppose I am a Power Metal facist huh?"

- The Future?... "Another album, More gigs abroad and hopefully the band spreading it's wings even further...we are looking to push the envelope in all directions even further in the future..."

- And what is The Burning Season?... "The Burning Season is the Age we are living in...like the climactic scene to some perverse tragedy. It is the Season for the bold, those willing to shape their own destiny according to their will. The curtain is coming down on this Age. The Burning Season says slay your sacred cows, set the heavens aflame, tear the temples asunder...be it mental, physical or emotional...be it bricks and mortar and overcoming yourself, bring the so called guardians of morality to bear witness to their crimes. Free yourself from bondage...The Burning Season is about the Dawning of a New Age for those with Fire in their veins...Carpe Mundum..."

- So your saying we should buy it then?... "Of course!..."

**VALHALLA** is Ireland's only Extreme Metal club and is on the last Friday of every month in Fibber McGees or Club Aquarium (Baccus Bar)...just off the top of O'Connell Street in Dublin, admission is £5 and on Friday the 24<sup>th</sup> it is the official **PRIMORDIAL** Mcd launch...with give aways and the like and the **SONS OF SATAN** livening things up a little...there are resident DJ's there and the **DRUISFUIL** gang are open to any ideas or bands for the future...just remember don't become

complacent...be there, it's only once a month and without it there'd be sweet fuck all...if you have any details of any Metal/rock nights on near you outside Dublin then write and let us know and we'll print it's whereabouts. Don't settle for what you don't want to hear...demand it...remember the last Friday of the month. #### REVIEWS....

**NEVERMORE (us) "Dreaming Neon Black" cd**  
For the older and more conventional among you, you will remember most of these guys from Sanctuary in the late 80's...this is their 4<sup>th</sup> full length for Century media which seems to be garnering the band a lot more attention outside the realms of the Power Metal clientele. And it is surely not before time. Nevermore are an unconventional prospect and if the term Power Metal to you conjures up only Hammerfall then you are sadly mistaken. Dreaming is a difficult, complex yet intensely rewarding listen, believe me it will repay the money you invest in it a hundred fold if you let it in. For it is a difficult record to get into, wholly uncompromising and never ever seeking the easy way out or the lowest common denominator. Complex and technical changes, a dense and unforgiving tone is et throughout. An angry, bitter and ultimately realistic journey through the very Dark Night of the Soul...Dreaming will leave you gasping for air as you sink into despair. Let 'Dreaming' under your skin and you and the masochist will come to understand and crave the pain for evermore.

**HAMMERFALL (swe) "I Want Out" mcd**  
The Power Metal band it is ok to like if you are an ardent Black or Death Metal fan...sad but true. What Hammerfall have done for the Metal scene, i.e. kicking it up the ass was a much needed revelation but realistically Hammerfall are a middling to good band, honest in their intent but never a great band. I was however pleasantly surprised at this their cover of that old Helloween classic...Crisp, heavy and focused...now if Cans could just inject some more balls into his voice...good may become great ?...

**DIMMU BORGIR/ OLDMAN'S CHILD (nor) 'Sons Of Satan Gather For Attack' cd**  
Comprising the first Dimmu Borgir mini album, 'Devil's Path', and the classic Old Man's Child demo 'In The shades Of Life', this CD is a must for all fans of these two Norwegian stalwarts. The Dimmu stuff shows where it all began in modesty and is complimented by the melody and attack of the Old Man's Child. Definitely a must for all Dimmu fans!!!

**POSSESSED (us) "Seven Churches" cd**  
Should I really need to review this ?...surely every self respecting Black or Death Metal fan has this ?...seemingly not as we sell it quickly...well if you want to know where it all began then start here...let's put it this way the last track is called "Death Metal", make it any clearer for you ?...The influence of this record is so far reaching, every where you turn it's there...from the oft copied but never equalled acid of Jeff Boccera's vocals to the unique and wholly innovative not to mention bestial guitar riffing...from Cannibal Corpse to Death to Angelcorpse, Marduk,

Morbid Angel and Sadistic Intent etc...etc...they've all tasted it's poison...Death Metal came in the Wind!  
**VARATHRON (gre) "The Lament of Gods" MCD**

I always had an inexplorable soft spot for this band, and while Rotting Christ and the currently awol Necromantia went on to bigger and better things old Varathron remained firmly rooted in the Heart of the underground Abyss...their occultic vision never altered nor changed. The band have definitely grown and their melodic sensibilities worm their way under your skin in a subtle and unassuming way...until you feel yourself drawn to them. If you remember that old occultic feel from old Rotting Christ, Necromantia, Mortuary Drape or Beherit...then The Lament of Gods may be for you....

**SATYRICON (nor) "Rebel Extravaganza" CD**  
Following on from a lengthy break SATYRICON unleash this their fourth full length album on Germany's Nuclear Blast. A unique composition of modern, almost industrial-ish sounds and Satyricon's traditional Black Metal approach, this album is a swathe of darkness and filth you're not likely to have heard before. Gone are the majestic and medieval elements in favour of the more grim and filthy trials of modern living. It's dark and brooding and most importantly it is a stroke of dark genius that will long stay in your cd player. A must for all Black metal fans, Satyricon are back my friends, and with a vengeance!

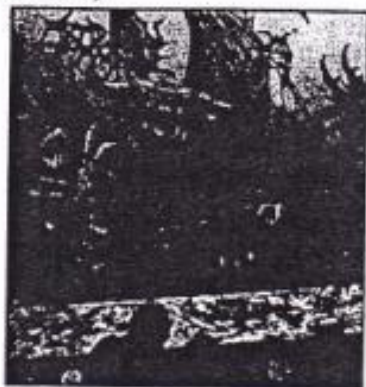

**ABADDON INCARNATE (ire) "The Last Supper" CD**  
Death Metal has resurfaced from its return to the underground in the past few years and Abaddon are there leading the way in perverted, demented, sick, filthy, vile Death Metal! This album brings the concept of insanity to a whole new level of depravity and disgust...It's raw, brutal, violent, fusing together the best of Morbid Angel, Possessed and later day Death Metal, Abaddon are set to destroy your world sonically, without remorse! If you crave Death the fuckin' brutal way, Abaddon are here to rape your senses!
